

# Detroit Lakes Public Education Foundation Grant Application Budget Page

Please be detailed in your budget listing of how foundation grant funds will be spent. For example, list all books, equipment or materials to be purchased, along with prices and shipping costs on an attached page. It is recommended that purchases be made through the Detroit Lakes Public Schools Administrative Center as they may have access to the best prices. The District's Technology Department (Andy Spurlin) at 847-9271, should be consulted on software and electronic equipment compatibility and support within the district.

**Applications will be considered incomplete if detailed budget information and a building principal signature is not provided.**
